## **Metos Proff Professional All Stainless Steel Kitchen Units**

# PROFF ELEMENTS

**Proff kitchen fixture range** together with other Proff units provides a unique opportunity to raise your kitchen to a new level of hygiene and ergonomics. You can choose from the Proff standard selection or you can design a Proff unit of your own choosing.

A distinctive feature of the Proff range is the rounded design of the front edge and splash guard. Sturdy handles, made of polypropylene plastic, are easy to clean, as they can withstand all the chemicals used in the kitchen.

The standard height of the Proff tables is 900 mm, the adjustment range of the legs is + or - 25 mm. The adjustable threads of the pleasant round legs are totally hidden. The square legs are of 40x40 mm stainless steel tube. Proff fixtures are also available with a high base with 250 mm lower space. The standard splash guard in wash tables is 60 mm high. As an option, a 60-200 mm high splash guard is available.

Cupboard 400 mm or 800 mm.

The seamless counter top is tailor-made to match your need. Below the top there is a stainless support frame with efficient soundproofing.

The telescopic runners enable the drawers to be pulled out entirely.

Rails for four wash racks.

All drawers are fitted with frame for GN containers (containers not included).

Cutting board rack.

Proff fixtures offer many practical details and numerous combination possibilities with refrigerated and heated Proff units.

Rails for seven GN1/1-65 containers.

Round waste hole with collar.

Wash basins and sinks with rounded edges.

Strainer basket, rounded construction easy to clean.

# PROFF STANDARD UNITS

**Proff standard units** include the work tops and standard elements described on these pages. The standard counter top depth is 650 mm. You can also design table units to suit your specific need using the Proff elements.
