

iCombi® Classic.

Productive. Robust.
Reliable.

metos
kitchen intelligence®

The iCombi Classic.

Traditional performance you can trust.

The iCombi Classic is truly multitalented, and will quickly become the indispensable assistant in your kitchen. It replaces numerous conventional cooking appliances on a footprint of less than approx. 1 m², it is robust, high-performing, powerful and efficient. It is easy to use. The impressive functions guarantee high cooking quality. So that with your experience as a chef, you will always get the results you want.

➔ **That's confidence**
A combi-steamer combining high productivity with high food quality.

Easy to use

Dial with push function, colour display, clear symbols on the user interface, so that you can work intuitively and without errors.

➔ Page 6

Simple programming

Individual programming with up to 100 programs, with multi-step cooking processes of up to 12 steps. For endlessly reproducible results.

➔ Page 6

ClimaPlus

Top dehumidification performance and the ability to set humidity in 10% stages create a precise cooking cabinet climate. For fast results.

➔ Page 4

Extended networking

The optional LAN or WiFi interface allows integration in ConnectedCooking, the Metos Rational networking solution.

Fan wheels

Together with the cooking cabinet shape, up to 3 fan wheels provide optimal distribution of the heat providing high energy input into the food. For uniform results and high productivity.

➔ Page 6

Cleaning and descaling

Automatic clean, including overnight, phosphate-free cleaner tabs and reduced consumption of detergent - it could not get cleaner than that. The care system also prevents scale.

➔ Page 8

LED cooking cabinet lighting

Trust is good, control is better: With the high light intensity and neutral light colour, the external cooking level can be identified quickly.

Productivity that meets the challenges of your kitchen.

Unique cooking performance

ClimaPlus

The iCombi Classic works at a consistently high level, thanks to: the central measurement and regulatory system for a uniform, individual cooking cabinet climate; the powerful fresh steam generator for optimal steam saturation; the high-performance dehumidification; increased quantity of fan wheels and optimal cooking cabinet design. This means energy is transferred to the food with precision and, where appropriate, with a lot of power. The result: large load size with excellent uniform results across all the racks. With up to 10% less energy and water consumption. For the one objective: producing consistent high quality results with crisp crusts, attractive diamond grill patterns, crispy breaded products.

up to 105^{Liter/sec.}

max.
Steam saturation

➔ **Together this brings**
Higher performance, more
productivity, lower resource
consumption.

It can all be controlled.
Simply and intuitively.

Easy to use

This is how quick it can be: In no time at all, you will be able to operate the iCombi Classic with ease. Thanks to its simplicity, its recognisable symbols and dial with a push function. That is simple.

Individually programmable

Satisfied with the result? Then save the cooking process with up to 12 steps. You can even do this for up to 100 cooking programs.

➔ For a high level of excellence, reliability and quality.

30–130 °C

Steam mode

The fresh steam generator with humidity regulation in 10% stages produces hygienic fresh steam. This provides – together with constant cooking cabinet temperature – optimal steam saturation and a uniform cooking process.

➔ For appetising colour and the retention of nutrients and vitamins.

30–300 °C

Convection mode

Air is circulated all around the food at individually adjusted air speeds. The reserve capacity is even enough for a full load of pan fried products, frozen foods such as calamari, croquettes or bakery goods.

➔ Powerful performance for good results.

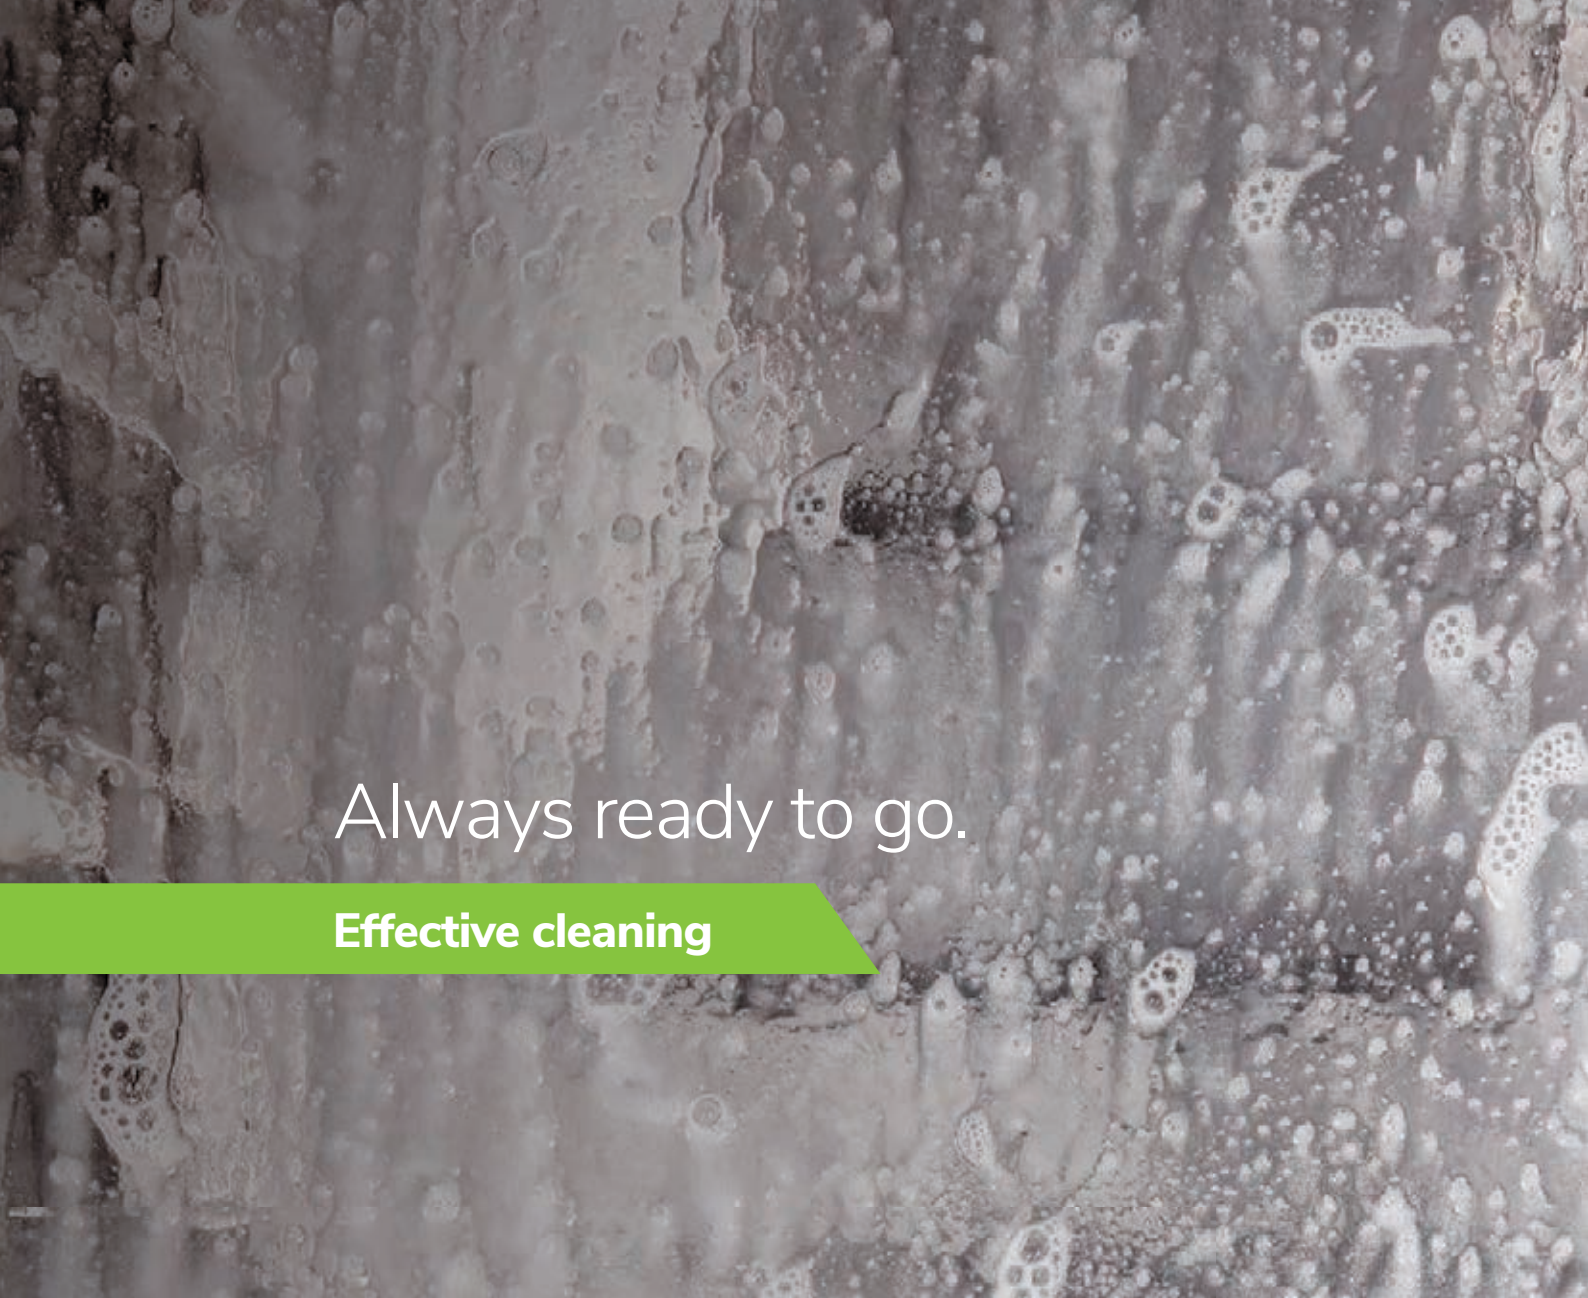

30–300 °C

Combination mode

The advantages of steam combined with the benefits of convection heat: short cooking time, reduction in shrinkage and intensive aromas with appetising colours. For excellent results.

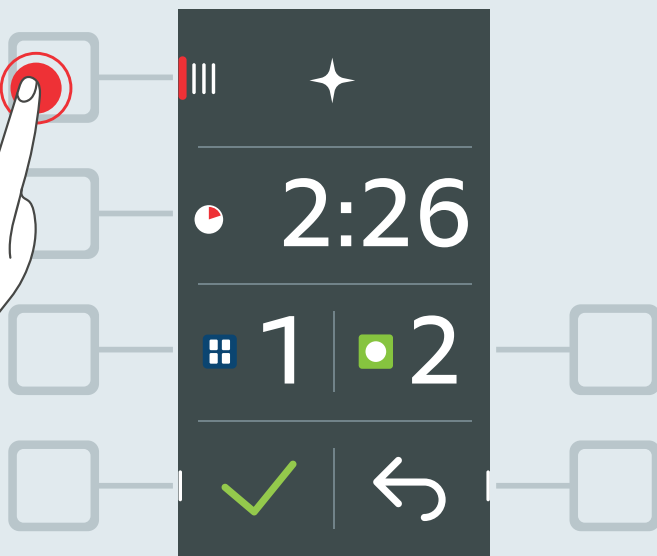

➔ No cooking loss, no drying, high quality.

Always ready to go.

Effective cleaning

Regardless of how hard the iCombi Classic has worked, depending on how dirty the unit is, the automatic clean will determine the necessary cleaning stage. Strong, light or medium. With phosphate-free cleaner tabs. Day or night. Or even in between, even without tabs. Even with the Care system, which eliminates the need for expensive water softening and regular descaling of the steam generator. To make cleaning easier, all the cleaning stages are quick and easy to select on the display.

➔ **Because only one thing counts**
That your cooking system is
perfectly hygienic at all times
with minimal effort.

Technical details.

Offers everything. Down to the smallest detail.

If you have a lot to deliver, you need the right technology. The iCombi Classic has:

- ❶ LED cooking cabinet lighting
- ❷ Unit monitoring and download of HACCP data via ConnectedCooking (only with optional LAN or WiFi interface)
- ❸ New sealing technology for floor units
- ❹ Integrated hand shower
- ❺ Fresh steam generator
- ❻ Double-glazed door with heat-reflecting coating

Also, LAN/WiFi (optional), integrated door drip tray, centrifugal grease trap

Accessories.

The right ingredients for your success.

You know how it goes, the iCombi Classic is your tool and supports you on the path to your desired result. Including with the right accessory. From the grill plate with the excellent thermal conductivity to the powerful exhaust and condensation hoods and the practical stand. Regardless of what the purpose of the different accessories is, they all have one thing in common: It can withstand a lot and also deliver a lot.

Every day.

➔ Original Accessories

We also have the sophisticated accessories to thank for such impressive results.

iCombi Classic overview of models.

Classic features, multiple possibilities.

The iCombi Classic is available in many different sizes, as ultimately its performance fits your needs and not the other way around. 20 meals or 2 000? Front of house cooking? Size of kitchen? Electricity? Gas? 6-1/1? 20-2/1? Which model belongs in your kitchen?
