

Metos Proff Hot Dispensing Equipment

Metos Proff Hot dispensing equipment are designed to meet the wide range of our customer needs. Metos Proff is a series of easy-to-clean, hygienic and ergonomic fixtures and equipment. The whole structure of equipment is made out of stainless steel. For the marine use the Proff-series is designed without any wooden structures. The sturdy adjustable legs have collars with two bolt holes. Proff units can be welded to the deck with the collar.

The cupboard doors close automatically. The doors have easily changeable gaskets and strong magnetic closing. The standard supply is with one intermediate shelf or GN guide rails. The cupboard temperature range is +40...+80 °C, a separate thermostat for cupboard and heated top.

The bain marie has precision electronic temperature control. The delivery includes dividers for basin. The basin depth is 210 mm and it has rounded corners and a bottom valve. The cupboard under the basin is heated, a separate thermostat for cupboard and basin.

Heated unit with neutral top	Dimensions mm	Capacity	230V~1 50/60Hz	Weight kg Net/Gross
